## EXHIBITION: SENSORIUM

Can touch, smell, sound and physical forms change the way we experience and view art?

*Sensorium* is a multisensory immersive exhibition with objects created to stimulate the senses.

The exhibition can be perceived with numerous sensations such as sound, sight, smell and will encourage the audience to discover heightened sensory observations while being immersed in textures, smells, colours, and sounds.\*

*\* Due to COVID19 regulations, instead of being an interactive exhibition that includes touch, Sensorium will encourage the audience to experience the exhibition via sight, smell, and sound.*

## WORKSHOP: SOUND INSTALLATION OPEN TO ALL AGES (KIDS AND ADULTS)

As part of *Sensorium* we would like to invite your community group to participate in a creative workshop at Liverpool Library.

During the workshop the participants are invited to design and create images on objects with markers/poska's. These objects will be part of a sound installation for *Sensorium* in our Kids Gallery.
